

CHAPTER 54

ILLCIT DISCHARGE AND CONNECTION

54.01 PURPOSE AND INTENT.

The purpose of this ordinance is to provide for the health, safety, environment and general welfare of the citizens of the Village of Allouez through the regulation of non-storm water discharges into the municipal separate storm sewer system (MS4) or waters of the state to the maximum extent practicable as required by federal and state law. This ordinance establishes methods for controlling the introduction of pollutants into the MS4 or waters of the state in order to comply with requirements of the Village of Allouez's Wisconsin Pollutant Discharge Elimination System (WPDES) permit. The objectives of this ordinance are:

- (1) To regulate the contribution of pollutants into the MS4 or waters of the state by storm water discharges by any user.
- (2) To prohibit illicit connections and discharges into the MS4 or waters of the state.
- (3) To establish legal authority to carry out all inspection, surveillance, monitoring, and enforcement procedures necessary to ensure compliance with this ordinance.

54.02 AUTHORITY.

The Public Works Director shall administer, implement, and enforce the provisions of this ordinance. Any powers granted or duties imposed upon the Public Works Director may be delegated by the Public Works Director to persons or entities acting in the beneficial interest of or in the employ of the authorized enforcement agency.

ILLICIT DISCHARGE AND CONNECTION

This ordinance is not intended to modify or repeal any other ordinance, rule, regulation, or other provision of law. The requirements of this ordinance are in addition to the requirements of any other ordinance, rule, regulation, or other provision of law, and where any provision of this ordinance imposes restrictions different from those imposed by any other ordinance, rule, regulation, or other provision of law, whichever provision is more restrictive or imposes higher protective standards for human health or the environment shall control.

54.03 FINDINGS OF FACT.

The Village Board finds that illicit discharges can contribute high levels of pollutants, oil, grease, solvents, nutrients, viruses, and bacteria to receiving water bodies. Pollutant levels from illicit discharges are concentrated and may be high enough to significantly degrade receiving water quality and threaten aquatic, wildlife, and human health.

54.04 DEFINITIONS.

Authorized Enforcement Agency: Employees or designees of the Public Works Director of the Village of Allouez are designated to administer and enforce this ordinance.

Best Management Practices (BMPs): Structural or non-structural measures, practices, techniques or devices employed to avoid or minimize soil, sediment or pollutants carried in runoff to waters of the state.

Construction Activity: Activities subject to construction permits per the Village of Allouez Construction Site Erosion Control Ordinance or WPDES construction permits per NR 216 and ch. 283, Wis. Stats.

ILLICIT DISCHARGE AND CONNECTION

Contaminated storm water: Storm water that comes into contact with material handling equipment or activities, raw materials, intermediate products, final products, waste materials, byproducts or industrial machinery in the source areas listed in NR 216.

Department (DNR): The Wisconsin Department of Natural Resources.

Discharge: As defined in ch. 283, Wis. Stats., when used without qualification includes a discharge of any pollutant.

Discharge of pollutant or discharge of pollutants: As defined in ch. 283, Wis. Stats. means any addition of any pollutant to the waters of this state from any point source.

Hazardous Materials: Any material, including any substance, waste, or combination thereof, which because of its quantity, concentration, or physical, chemical, or infectious characteristics may cause, or significantly contribute to, a substantial present or potential hazard to human health, safety, property, or the environment when improperly treated, stored, transported, disposed of, or otherwise managed.

Illicit Discharge: Any discharge into waters of the state or a municipal separate storm sewer system that is not composed entirely of storm water. Discharges that are not considered illicit discharges include water line flushing, landscape irrigation, diverted stream flows, uncontaminated pumped groundwater, discharges from potable water sources, foundation drains, air conditioning condensation, irrigation water, lawn watering, individual residential car washing, flows from riparian habitats and wetlands, fire fighting, and discharges authorized under a WPDES permit unless identified by the Public Works

ILLCIT DISCHARGE AND CONNECTION

Director as a significant source of pollutants to waters of the state.

Illicit Connections: An illicit connection is defined as either of the following:

- (a) Any drain or conveyance, whether on the surface or subsurface that allows an illicit discharge to enter the MS4 or waters of the state including but not limited to any conveyances that allow any non-storm water discharge including sewage, process wastewater, and wash water to enter the MS4 or waters of the state and any connections to the MS4 or waters of the state from indoor drains and sinks, regardless of whether said drain or connection had been previously allowed, permitted, or approved by an authorized enforcement agency or,
- (b) Any drain or conveyance connected from a commercial or industrial land use to the MS4 or waters of the state which has not been documented in plans, maps, or equivalent records and approved by an authorized enforcement agency.

Industrial Activity: Activities subject to WPDES Industrial Permits per NR 216 and ch. 283, Wis. Stats.

Maximum Extent Practicable (MEP): A level of implementing management practices in order to achieve a performance standard or other goal which takes into account the best available technology, cost effectiveness and other competing issues such as human safety and welfare, endangered and threatened resources, historic properties and geographic features.

Municipality: Any city, town, village, county, county utility district, town sanitary district, town utility district, school district or metropolitan sewage district or any other public entity created pursuant to law and having authority to collect,

ILLICIT DISCHARGE AND CONNECTION

treat or dispose of sewage, industrial wastes, storm water or other wastes.

Municipal Separate Storm Sewer System (MS4): As defined in Wisconsin Administrative Code NR 216, means a conveyance or system of conveyances including roads with drainage systems, municipal streets, catch basins, curbs, gutters, ditches, constructed channels or storm drains, which meets all the following criteria:

- (a) Owned or operated by a municipality.
- (b) Designed or used for collecting or conveying storm water.
- (c) Which is not a combined sewer conveying both sanitary and storm water.
- (d) Which is not part of a publicly owned wastewater treatment works that provides secondary or more stringent treatment.

Non-Storm Water Discharge: Any discharge to the MS4 that is not composed entirely of storm water.

Owner: Any person holding fee title, an easement or other interest in property.

Outfall: The point at which storm water is discharged to waters of the state or to a storm sewer.

Person: An individual, owner, operator, corporation, partnership, association, municipality, interstate agency, state agency or federal agency.

Pollutant: As defined in ch. 283, Wis. Stats., means any dredged spoil, solid waste, incinerator residue, sewage, garbage, refuse, oil, sewage sludge, munitions, chemical wastes, biological materials, radioactive substance, heat, wrecked or discarded equipment, rock, sand, cellar dirt and industrial, municipal and agricultural waste discharged into water.

ILLICIT DISCHARGE AND CONNECTION

Pollution: As defined in ch. 283, Wis. Stats., means any man-made or man-induced alteration of the chemical, physical, biological or radiological integrity of water.

Pollution prevention: Taking measures to eliminate or reduce pollution.

Premises: Any building, lot, parcel of land, or portion of land whether improved or unimproved including adjacent sidewalks and parking strips.

Storm Water: Runoff from precipitation including rain, snow, ice melt or similar water that moves on the land surface via sheet or channelized flow.

Storm Water Management Plan / Storm Water Pollution Prevention

Plan: A document which describes the Best Management Practices and activities to be implemented by a person or business to identify sources of pollution or contamination at a site and the actions to eliminate or reduce pollutant discharges to the MS4 or waters of the state to the Maximum Extent Practicable.

Violator: The person as defined herein that causes a violation of this ordinance.

Wastewater: Any water or other liquid, other than uncontaminated storm water, discharged from a facility.

Watercourse: A natural or artificial channel through which water flows. These channels include: all blue and dashed blue lines on the USGS quadrangle maps, all channels shown on the soils maps in the NRCS soils book for Brown County, all channels identified on the site, and new channels that are created as part of a

ILLICIT DISCHARGE AND CONNECTION

development. The term watercourse includes waters of the state as herein defined.

Waters of the state: As defined in ch. 283, Wis. Stats., means those portions of Lake Michigan and Lake Superior within the boundaries of Wisconsin, all lakes, bays, rivers, streams, springs, ponds, wells, impounding reservoirs, marshes, water courses, drainage systems and other surface water or groundwater, natural or artificial, public or private within the state or under its jurisdiction, except those waters which are entirely confined and retained completely upon the property of a person.

Wisconsin Pollutant Discharge Elimination System (WPDES) Storm Water Discharge Permit: A Wisconsin pollutant discharge elimination system permit issued pursuant to Wisconsin Statute 283.

54.05 APPLICABILITY AND JURISDICTION.

This ordinance shall apply to all water and discharges entering the MS4 or waters of the state generated on any lands unless explicitly exempted by the Public Works Director.

54.06 DISCHARGE PROHIBITIONS.

A. Prohibition of Illicit Discharges.

No person shall throw, dump, spill, drain, or otherwise discharge, cause, or allow others under its control to throw, dump, spill, drain, or otherwise discharge into the MS4 or waters of the state any pollutants or waters containing any pollutants, other than storm water.

B. Allowed Discharges.

- (1) Water line flushing, landscape irrigation, diverted stream flows, uncontaminated pumped ground water, discharges from potable water sources, foundation drains, air conditioning condensation, irrigation water, lawn watering, individual residential car washing, flows from riparian habitats and wetlands, and discharges authorized under a WPDES permit unless identified by the Public Works Director as a significant source of pollutants to waters of the state.
- (2) Discharges or flow from firefighting, and other discharges specified in writing by the Public Works Director as being necessary to protect public health and safety.
- (3) Discharges associated with dye testing, however this activity requires a verbal notification to the Public Works Director and the Department of Natural Resources a minimum of one business day prior to the time of the test.
- (4) Any non-storm water discharges permitted under a construction activity permit, industrial activity permit, or WPDES permit shall comply with all provisions of such permit. Proof of compliance with said permit may be required in a form acceptable to the Public Works Director prior to allowing discharges to the MS4 or waters of the state.

C. Prohibition of Illicit Connections.

- (1) The construction, use, maintenance or continued existence of illicit connections to the MS4 or waters of the state is prohibited.
- (2) This prohibition expressly includes, without limitation, illicit connections made in the past, regardless of whether the connection was permissible under law or practices applicable or prevailing at the time of connection.
- (3) A person is considered to be in violation of this ordinance if the person connects a line conveying sewage to the MS4 or waters of the state, or allows such a connection to continue.
- (4) Improper connections in violation of this ordinance must be disconnected and redirected, if necessary, to the sanitary sewer system upon approval of the Public Works Director.
- (5) Any drain or conveyance that has not been documented in plans, maps or equivalent, and which may be connected to the MS4 or waters of the state, shall be located by the owner or occupant of that property upon receipt of written notice of violation from the Public Works Director requiring that such locating be completed. Such notice will specify a reasonable time period within which the location of the drain or conveyance is to be determined, that the drain or conveyance be identified as storm sewer, sanitary sewer or other, and that the outfall location or point of connection to the storm sewer system, sanitary sewer system or other discharge point be identified.

ILLCIT DISCHARGE AND CONNECTION

Results of these investigations are to be documented and provided to the Public Works Director.

54.07 WATERCOURSE PROTECTION.

Every person owning property through which a watercourse passes, or such person's lessee, shall keep and maintain that part of the watercourse within the property free of soil erosion, trash, debris, and other obstacles that would pollute, contaminate, or significantly retard the flow of water through the watercourse. In addition, the owner or lessee shall maintain existing privately owned structures within or adjacent to a watercourse, so that such structures will not become a hazard to the use, function, or physical integrity of the watercourse.

54.08 COMPLIANCE MONITORING.

A. Right of Entry: Inspecting and Sampling.

The Public Works Director shall be permitted to enter and inspect properties and facilities subject to regulation under this ordinance as often as may be necessary to determine compliance with this ordinance.

- (1) If a property or facility has security measures in force which require proper identification and clearance before entry into its premises, the owner or operator shall make the necessary arrangements to allow access to representatives of the Public Works Director.
- (2) Facility owners and operators shall allow the Public Works Director ready access to all parts of the premises for the purposes of inspection, sampling, examination and copying of records.

ILLCIT DISCHARGE AND CONNECTION

- (3) The Public Works Director shall have the right to set up on any property or facility such devices as are necessary in the opinion of the Public Works Director to conduct monitoring and/or sampling of the facility's storm water discharge.
- (4) The Public Works Director has the right to require the owner or operator to install monitoring equipment as necessary, and make the monitoring data available to the Public Works Director. The facility's sampling and monitoring equipment shall be maintained at all times in a safe and proper operating condition by the discharger at its own expense. All devices used to measure storm water flow and quality shall be calibrated to ensure their accuracy.
- (5) Any temporary or permanent obstruction to safe and easy access to the property or facility to be inspected and/or sampled shall be promptly removed by the owner or operator at the written or oral request of the Public Works Director and shall not be replaced. The costs of clearing such access shall be borne by the owner or operator.
- (6) Unreasonable delays in allowing the Public Works Director access to a facility is a violation of this ordinance. A person who is the operator of a facility commits an offense if the person denies the Public Works Director reasonable access to the facility for the purpose of conducting any activity authorized or required by this ordinance.

B. Special Inspection Warrant.

If the Public Works Director has been refused access to any part of the premises from which storm water is discharged, and the Public Works Director is able to demonstrate probable cause to believe that there may be a violation of this ordinance, or that there is a need to inspect and/or sample as part of a routine inspection and sampling program designed to verify compliance with this ordinance or any order issued hereunder, or to protect the overall public health, safety, environment and welfare of the community, then the Public Works Director may seek issuance of a special inspection warrant per s. 66.0119, Wis. Stats.

54.09 BEST MANAGEMENT PRACTICES.

The owner or operator of any activity, operation, or facility which may cause or contribute to pollution or contamination of storm water shall provide, at their own expense, reasonable protection from accidental discharge of prohibited materials or other wastes into the MS4 or waters of the state through the use of structural and non-structural BMPs. Further, any person responsible for a property or premise, that is, or may be, the source of an illicit discharge, may be required to implement, at said person's expense, additional structural and non-structural BMPs to prevent the further discharge of pollutants to the MS4 or waters of the state. Compliance with all terms and conditions of a valid permit authorizing the discharge of storm water associated with industrial activity or construction activity, to the maximum extent practicable, shall be deemed compliance with the provisions of this section.

54.10 NOTIFICATION OF SPILLS.

Notwithstanding other requirements of law, as soon as any person responsible for a facility or operation, or responsible for emergency response for a facility or operation has information of any known or suspected release of materials which are resulting or may result in illicit discharges or pollutants discharging into storm water, the MS4, or waters of the state, said person shall take all necessary steps to ensure the discovery, containment, and cleanup of such release, so as to minimize the impacts of the discharge.

In the event of such a release of hazardous materials said person shall immediately notify emergency response agencies of the occurrence via emergency dispatch services, and shall also notify the Public Works Director. In the event of a release of non-hazardous materials, said person shall notify the Public Works Director in person or by phone or facsimile no later than the next business day. Notifications in person or by phone shall be confirmed by written notice addressed and mailed to the Public Works Director within 3 business days of the phone notice. If the discharge of prohibited materials emanates from a commercial or industrial establishment, the owner or operator of such establishment shall also retain an on-site written record of the discharge and the actions taken to prevent its recurrence. Such records shall be retained for at least 5 years.

Failure to provide notification of a release as provided above is a violation of this ordinance.

54.11 VIOLATIONS AND ENFORCEMENT.

A. Violations.

It shall be unlawful for any person to violate any provision or fail to comply with any of the requirements of this ordinance. Any person who has violated or continues to violate the provisions of this ordinance, may be subject to the enforcement actions outlined in this section or may be restrained by injunction or otherwise abated in a manner provided by law.

In the event the violation constitutes an immediate danger to public health or public safety, the Public Works Director is authorized to enter upon the subject private property, without giving prior notice, to take any and all measures necessary to abate the violation. The Public Works Director is authorized to seek costs of the abatement as outlined in Section 54.16.

B. Warning Notice.

When the Public Works Director finds that any person has violated, or continues to violate, any provision of this ordinance, or any order issued hereunder, the Public Works Director shall serve upon that person a written Warning Notice via US Certified Mail Return Receipt, specifying the particular violation believed to have occurred and requesting the discharger to immediately investigate the matter and to seek a resolution whereby any offending discharge will cease. Investigation and/or resolution of the matter in response to the Warning Notice in no way relieves the alleged violator of liability for any violations occurring before or after receipt of the Warning Notice. Nothing in the subsection shall limit the

authority of the Public Works Director to take action, including emergency action or any other enforcement action, without first issuing a Warning Notice.

C. Notice of Violation.

Whenever the Public Works Director finds that a person has violated a prohibition or failed to meet a requirement of this ordinance, the Public Works Director shall order compliance by written notice of violation via US Certified Mail Return Receipt to the responsible person.

The written Notice of Violation shall contain:

- (1) The name and address of the alleged violator;
- (2) The address when available or a description of the building, structure or land upon which the violation is occurring, or has occurred;
- (3) A statement specifying the nature of the violation;
- (4) A description of the remedial measures necessary to restore compliance with this ordinance and a time schedule for the completion of such remedial action;
- (5) A statement of the penalty or penalties that shall or may be assessed against the person to whom the notice of violation is directed;
- (6) A statement that the determination of violation may be appealed to the Public Works Director by filing a written notice of appeal within 3 business days of service of notice of violation; and

- (7) A statement specifying that, should the violator fail to restore compliance within the established time schedule, representatives of the Public Works Director may issue a notice of intent to the responsible party of its intent to perform work necessary to comply with this ordinance. The Public Works Director may go on the land and commence the work after issuing the notice of intent. The Public Works Director is authorized to seek costs of the abatement as outlined in Section 54.16.

D. Notice of Violation Requirements.

Such notice may require without limitation:

- (1) The performance of monitoring, analyses, and reporting;
- (2) The elimination of illicit connections or discharges;
- (3) That violating discharges, practices, or operations shall cease and desist;
- (4) The abatement or remediation of storm water pollution or contamination hazards and the restoration of any affected property;
- (5) Payment of a fine to cover administrative and remediation costs; and
- (6) The implementation of BMPs.

54.12 SUSPENSION OF MS4 ACCESS

A. Emergency Cease and Desist Orders.

When the Public Works Director finds that any person has violated, or continues to violate, any provision of this ordinance, or any order issued hereunder, or that the person's past violations are likely to recur, and that the person's violation(s) has (have) caused or contributed to an actual or threatened discharge to the MS4 or waters of the state which reasonably appears to present an imminent or substantial endangerment to the health or welfare of persons or to the environment, the Public Works Director shall issue an order to the violator directing it immediately to cease and desist all such violations and directing the violator to:

- (1) Immediately comply with all ordinance requirements;
and
- (2) Take such appropriate preventive action as may be needed to properly address a continuing or threatened violation, including immediately halting operations and/or terminating the discharge.

Any person notified of an emergency order directed to it under this Subsection shall immediately comply and stop or eliminate its endangering discharge. In the event of a discharger's failure to immediately comply voluntarily with the emergency order, the Public Works Director may take such steps as deemed necessary to prevent or minimize harm to the MS4 or waters of the state, and/or endangerment to persons or to the environment, including immediate termination of a facility's water supply, sewer connection, or other municipal utility services. The Public Works

ILLICIT DISCHARGE AND CONNECTION

Director may allow the person to recommence its discharge when it has demonstrated to the satisfaction of the Public Works Director that the period of endangerment has passed, unless further termination proceedings are initiated against the discharger under this ordinance. The person that is responsible, in whole or in part, for any discharge presenting imminent endangerment shall submit a detailed written statement, describing the causes of the harmful discharge and the measures taken to prevent any future occurrence, to the Public Works Director within 30 days of receipt of the violation.

B. Suspension due to Illicit Discharges in Emergency Situations.

The Public Works Director may, without prior notice, suspend MS4 discharge access to a person when such suspension is necessary to stop an actual or threatened discharge which presents or may present imminent and substantial danger to the environment, or to the health or welfare of persons, or to the MS4 or waters of the state. If the violator fails to comply with a suspension order issued in an emergency, the Public Works Director may take such steps as deemed necessary to prevent or minimize damage to the MS4 or waters of the state, or to minimize danger to persons.

C. Suspension due to the Detection of Illicit Discharge.

Any person discharging to the MS4 in violation of this ordinance may have their MS4 access terminated if such termination would abate or reduce an illicit discharge. The Public Works Director shall notify a violator of the proposed termination of its MS4 access.

ILLICIT DISCHARGE AND CONNECTION

A person commits an offense if the person reinstates MS4 access to premises terminated pursuant to this Section, without the prior written approval of the Public Works Director.

54.13 PROSECUTION AND PENALTIES.

Any person violating any provision of this ordinance shall be subject to a forfeiture of not less than \$100 nor more than \$500 and the costs of prosecution for each violation. Each day a violation exists shall constitute a separate offense.

Compliance with the provisions of this ordinance may also be enforced by injunction in any court with jurisdiction. It shall not be necessary to prosecute for forfeiture or a cease and desist order before resorting to injunctive proceedings.

54.14 APPEALS.

A. Method of Appeal.

Pursuant to Section 51.07 of the Village of Allouez Code of Ordinances and pursuant to s. 61.354(4)(b), Wis. Stats., the Village Board:

- (1) Shall hear and decide appeals where it is alleged that there is error in any order, decision or determination made by the Public Works Director in administering this ordinance except for cease and desist orders obtained under Section 54.12.

ILLCIT DISCHARGE AND CONNECTION

- (2) Upon appeal, may authorize variances from the provisions of this ordinance which are not contrary to the public interest and where owing to special conditions a literal enforcement of the provisions of the ordinance will result in unnecessary hardship; and
- (3) Shall use rules, procedures, duties and powers authorized by statute in hearing and deciding appeals and authorizing variances.

B. Who May Appeal.

Appeals to the Village Board may be taken by any aggrieved person or by any office, department, board, or bureau of the Village of Allouez affected by any decision of the Public Works Director.

54.15 ENFORCEMENT MEASURES AFTER APPEAL.

If the violation has not been corrected pursuant to the requirements set forth in the Notice of Violation, or, in the event of an appeal, the appropriate authority upheld the decision of the Public Works Director, then representatives of the Public Works Director may issue a notice of intent to the responsible party of its intent to perform work necessary to comply with this ordinance. The Public Works Director may go on the land and commence the work after issuing the notice of intent. The Public Works Director is authorized to seek costs of abatement as outlined in Section 54.16. It shall be unlawful for any person, owner, agent or person in possession of any premises to refuse to allow the government agency or designated contractor to enter upon the premises for the purposes set forth above.

54.16 COST OF ABATEMENT OF THE VIOLATION.

The costs of the work performed by the Public Works Director pursuant to this ordinance, plus interest at the rate authorized by the Village Board shall be billed to the responsible party. In the event a responsible party fails to pay the amount due, the clerk shall enter the amount due on the tax rolls and collect as a special assessment against the property pursuant to subch. VII of ch. 66, Wis. Stats.

54.17 VIOLATIONS DEEMED A PUBLIC NUISANCE.

Any condition in violation of any of the provisions of this ordinance and declared and deemed a nuisance, may be summarily abated or restored at the violator's expense.

54.18 REMEDIES NOT EXCLUSIVE.

The remedies listed in this ordinance are not exclusive of any other remedies available under any applicable federal, state or local law and it is within the discretion of the Public Works Director to seek cumulative remedies.

The Public Works Director may recover all attorney's fees court costs and other expenses associated with enforcement of this ordinance, including sampling and monitoring expenses.

54.19 SEVERABILITY.

The provisions of this ordinance are hereby declared to be severable. If any provision, clause, sentence, or paragraph of this ordinance or the application thereof to any person, establishment, or circumstances shall be held invalid, such invalidity shall not affect the other provisions or application of this ordinance.

54.20 TECHNICAL REFERENCE GUIDE.

The Illicit Discharge and Connection Technical Reference Guide is hereby incorporated into this ordinance. The Technical Reference Guide is intended to assist in interpretation and implementation of this ordinance.
