TechGYRLS® Instructor

Volunteer

YWCA Green Bay-De Pere is seeking **enthusiastic** and **compassionate** men and women to work with school age girls, encouraging their interest in the **STEM** fields (science, technology, engineering, and math). TechGYRLS® is an **all-girl program** that offers fun and exciting STEM experiments and opportunities. We have a lot of girls waiting to begin the program and in need of instructors. **Programs begin in October.**

We need volunteers in order to grow our program and boost the confidence and self-esteem of young girls!

The program meets afterschool (around 3:00) for 60 minutes at area schools Monday through Thursday.

All training, curriculum, and supplies will be provided

Description:

As a TechGYRLS® Instructor you will facilitate afterschool sessions for groups of about 10 girls in elementary and middle schools. Instructors will have the opportunity to become a mentor and role model for young girls as they explore STEM fields and careers through hands-on and inquiry based experiments.

There are many opportunities available

Qualifications: Candidate must...

Have a passion for children and a genuine interest in their education and development.

Have transportation to locations where the program is held
Be available to work in at least one school for

Commit minimally to one session (approximately 8 weeks)

Experience in education or any STEM field is desired but not necessary.

Please complete the application and return to:

Samantha Fields at sfields@ywcagreenbay.org

(Brown and Door counties)

Please note, because you will be working with children you will have to submit to a background check.
