

Bicycle Safety

The Fox River Trail is paved from the Trailhead to Lasee Road in De Pere. From Lasee Road south to the Brown County Line the trail is surfaced with very fine limestone or similar materials and is not designed for high speed travel. Bicyclists should be alert on the unpaved section of the trail as it can become soft and wet, can erode quickly during heavy rains and is subject to animal damage.

Here are a few general bicycle safety guidelines provided by the Wisconsin Department of Natural Resources:

- Wear bright clothing by day, white or reflective clothing by night. Shoes, pant leg clips, and **protective helmets are recommended.**
- Use a light and reflectors at night.
- Keep your bike under full control at all times.
- Keep your bike, especially the brakes, in safe condition.
- **Slow down and use voice or bell to warn others as you pass.**
- Be considerate of bikers coming your way. Keep right and allow room for oncoming traffic to pass.
- Keep at least two bike lengths between riders.

Please keep your trails clean and carry out your garbage and recyclables!

Restroom facilities are located at St. Francis Park, Fox Point Boat Launch, Voyageur Park and Bomier Street Boat Launch. Port-o-lets available at Midway Road and the Greenleaf trailhead.

THE FOX RIVER TRAIL corridor has a rich history, beginning with the Native Americans who used footpaths to travel between their villages located along the river. The early French explorers, missionaries, and traders built their posts and missions along these trails. Later, a military road was built along portions of the corridor linking Green Bay to Milwaukee. In 1873, the Milwaukee and Northern Railway Company purchased the corridor and the first trains began making regular runs between the Green Bay and Milwaukee markets. Trains would continue to run on the corridor for the next 116 years as ownership passed from one railroad to another. In 1989, regular rail service was discontinued, signaling the end of one era, and the beginning of another with the development of the Fox River Trail.
