- Park, Recreation & Forestry Committee
- Public Works Committee
- Historic Preservation Committee
- 1 Plan Commission

State any background information about yourself that you feel is appropriate and state your qualifications for serving on the committee/board/commission upon which you are desirous of serving.

I have always been an active member of the community that I call home. My very first committee that I ever served on was in 1999, planning for the Green Bay Chamber of Commerces' very first Teen Leadership program. Since that time, I have been a board member of Women in Management, served on United Way's Emerging Leadership Society's Advisory Board and now serve on the Marketing Committee for Downtown Green Bay, Inc., as well as the Mayor's Beautification Awards Committee for the City of Green Bay. Throughout the many years of living in the Green Bay area, the last three and a half have been my favorite. I have been a resident of Allouez for just under four years now, and have come to love the Village more than I thought possible. Over the course of the last year, I have become more active in the community, attending multiple Village meetings about the new developments happening in our Village. I am a huge advocate for Allouez, always telling people about the great things happening here, and why I love my community so much. My constant involvement in community organizations probably stems from my education. I have a degree in Social Change and Development from the University of Green Bay which means that I studied social processes and social problems. Throughout my studies, I learned how and why societies and cultures address social problems, public issues, social criticism and strategies for change with respect to contemporary American society. It is because of my education and career path that I believe I am an excellent fit for the Village of Allouez Plan Commission. I work for Somerville Architects and Engineers (which is an employee-owned firm right in the heart of Allouez), planning, coordinating and implementing all of the firm's marketing and publicity efforts. My inside knowledge of the the built environment, and experience in garnering community interest in projects are just a few additional reasons why I should be part of the Village of Allouez Plan Commission.

Born and raised in England I have always had a strong interest in history, its impact on society, culture and more important, the preservation of our historical roots.

I am employed by the Avient Company as Vice President of Global Sales, and during my career travelled extensively across all continents. As a result I would bring a broad historical perspective to the Committee.

In addition, my career and personal beliefs have been about leadership, team development and a commitment to success. I have worked with various global cultures and enjoy the interaction with people.

My historical interests and business experience and success would be beneficial assets for the Historic Preservation Committee.

Respectfully,
