Brad Lange

Village Administrator

1900 Libal Street

Green Bay, WI 54301

Dear Brad,

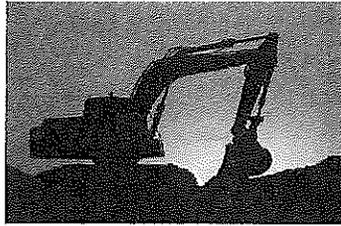

My name is John Bowers, we had talked briefly on Friday, October 21st, about an issue I was having with my sump pump line that goes into the storm lateral. It started 7 years ago when I had to replace part of the sump pump line because of a blockage caused by tree roots from the boulevard tree which the village owns. Since that time, more roots from that same tree caused another blockage and on October 21st I had the complete line replaced. I received 3 estimates and went with the best one.

This was an unexpected expense which hurt us as it would hurt any of our neighbors the same way. Since both issues were on my property as well as the villages, I feel it would only be right that we both share the expense. I have attached a copy of the invoice that I paid for the repairs.

My wife and I have been residents of Allouez since 1978 when we moved into our first home Memory Avenue. In 1991 we moved into our current home on Serenade Lane. As a resident I also spent 25 years as a volunteer firefighter. We enjoy living in Allouez and love our home. We have made many improvements over the years to add value and appeal, however when this issue arose, it was unexpected and caught us off-guard. We are confident that we can come to some type of financial agreement.

I look forward to hearing back to you soon with a reasonable decision.
