

# Memo

To: Plan Commission, Economic Development Committee

Fr: Trevor Fuller, Planning and Zoning Administrator

Re: DISCUSSION RE: BUSINESS AND ECONOMIC OUTLOOK 2019

Date: 27 December 2018

Many economic reports tend to be written for the national or state level. Limited information is available at the regional and local level. Staff is intending to share the business and economic outlook for 2019, from a macroeconomic point of view.

The committee is asked to have a broad level discussion on the trends being seen in different industries, where they expect the local and regional economy to go in 2019, and how policies at all levels impact growth.

This discussion is not meant to be political, but meant as an educational opportunity for staff to learn of obstacles and successes and how the village can be more responsive and proactive in business development.
