

§ 318-3 Seasonal use trailers, utility trailers, enclosed trailers, tents and camping equipment.

(3)

Camping equipment may park in the driveway or side yard of residentially zoned property from March 1 through November 15. ~~Pop-up campers not exceeding 20 feet in length shall further be allowed to park in the side yard of a property on an annual basis provided that the pop-up camper is in a closed position, except when utilized for living and sleeping purposes as provided for in this article~~

Reasons for the change.

1. We do not allow any other size camper to remained parked in the village
2. They remain visible to the public and have no useful reason to remain.
3. Some of them have been used to pile other items on top. For storage.
4. There are fully enclosed campers that are the same size by length and they are made to be removed.
5. They make the village look unkempt parked with snow piled on them.
