March 18, 2020

Good morning,

I would be asking every contractor and homeowner to contact me either by phone or email. I will communicate through those channels. If a permit is required I can give the contractors access to our online permitting process or they may send it to me through email. From now until this issue gets resolved I'm not going to be doing onsite inspection of any interior remodels of all residential projects, what I will be asking for are pictures or videos of the project or if we can delay the inspection that would be an option as well.

I will continue doing commercial inspections with no one else on site and a minimum of a day notice. New residential house projects I will also inspect with no one else on site when I perform the inspection. I will also continue performing all exterior inspections siding, roofing, fences, garages, and garden sheds. If there are any questions they may be directed to my phone number 920-448-2803 or my email [kevinw@villageofallouez.com](mailto:kevinw@villageofallouez.com)

Thank you,

Kevin Wieland, Building Inspector for the Village of Allouez
